Summary

Senior Product Designer & UI/UX Designer with 4+ years of experience designing enterprise web applications, responsive websites, and mobile products. Skilled in user research, information architecture, wireframing, prototyping, interaction design, usability testing, and developer handoff. Passionate about creating intuitive, accessible, and scalable digital experiences through cross-functional collaboration, design systems, and user-centered design.

Professional Experience

UI/UX Designer — Full-time
IMS Group — Ahmedabad, India — Apr 2024 – Present

- Led the end-to-end UX design process for enterprise web applications, translating business requirements into intuitive user experiences through research, wireframing, prototyping, and high-fidelity interface design.
- Collaborated with product managers, developers, QA teams, and stakeholders to align user needs with business objectives, ensuring seamless delivery throughout Agile development cycles.
- Established reusable UI components and scalable design patterns in Figma, improving design consistency and streamlining developer handoff across multiple enterprise projects.
- Enhanced user journeys through usability testing, iterative design improvements, and interaction optimization to deliver intuitive enterprise workflows.
- Received the **Best Promising Award (2025)** and the **ICE Award (Received Twice)** for design excellence, collaboration, and impactful project contributions.

Web & UI/UX Designer — Full-time
IT Idol Technologies — Valsad, India — Jan 2023 – Dec 2023

- Designed responsive web applications across PHP, Laravel, and Shopify platforms with a strong focus on usability and user-centered design.
- Created user flows, wireframes, interactive prototypes, and high-fidelity interfaces that improved client communication and streamlined project delivery.
- Collaborated closely with developers and project stakeholders to ensure accurate implementation and consistent user experiences across devices.
- Applied UX best practices, interaction design principles, accessibility standards, and front-end technologies (HTML, CSS, and JavaScript) to deliver high-quality digital products.
- Bridged UI/UX design and front-end development, strengthening collaboration between design and engineering teams while ensuring pixel-perfect implementation.

Web & UI/UX Designer — Internship → Full-time
Vastranand — Surat, Gujarat — Apr 2022 – Jan 2023

- Demonstrated rapid learning by applying design systems, color theory, typography, visual hierarchy, and UX best practices to responsive web design projects.
- Designed responsive websites and user interfaces that balanced business goals with intuitive, user-centered experiences across multiple client projects.
- Collaborated with designers, developers, and stakeholders in Agile environments, contributing to cross-platform interfaces, reusable UI components, and design documentation using Figma.
- Supported user research, design thinking, wireframing, usability testing, and iterative design improvements, building a strong foundation in interaction design and accessibility.
- Applied HTML, CSS, JavaScript, and Figma to ensure responsive implementation while continuously expanding expertise in UI/UX design and modern product development workflows.

Projects

HealthSync — Healthcare Product
- Designed a mobile-first healthcare platform for policy management, claims, and telehealth services.
- Conducted user research, user flows, wireframing, and interactive prototyping to simplify complex workflows.
- Built reusable UI components and scalable design systems in Figma.
- Improved usability through iterative testing, accessibility, and developer collaboration.

SketchifyAI — AI SaaS Platform
- Designed AI-powered workflows for image upload, processing, and artwork generation.
- Created user flows, wireframes, prototypes, and responsive interfaces.
- Collaborated with developers to ensure accurate implementation across devices.
- Applied user-centered design principles to deliver intuitive AI experiences.

BoxxyDine — Food Discovery Platform
- Designed a restaurant discovery platform for browsing, reservations, and food ordering.
- Improved navigation, search, and user journeys through UX research.
- Developed responsive UI components and interactive prototypes.
- Collaborated with stakeholders and developers to deliver seamless experiences.

CarePlus — Healthcare Website & Mobile App
- Designed a healthcare platform focused on appointments, patient engagement, and accessibility.
- Conducted UX research, information architecture, and wireframing.
- Created reusable UI components using responsive design principles.
- Delivered intuitive, user-centered experiences across web and mobile platforms.

Technical Skills

UX Design: User Research, Information Architecture, User Flows, Wireframing, Interactive Prototyping, Interaction Design, User-Centered Design, Responsive Web Design, Mobile-First Design, Design Thinking

Research & Evaluation: Usability Testing, Heuristic Evaluation, Accessibility (WCAG), UX Audits, A/B Testing

Design Systems: Design Systems, Component Libraries, Design Tokens, Auto Layout, Developer Handoff, Agile, Lean UX

Design Tools: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Canva, Axure RP

Development: HTML5, CSS3, JavaScript, PHP, Shopify, Laravel

Awards

The Best Promising Award Jan 2025

The ICE Award July 2026 — Sep 2024 — Jun 2024

Certifications

Growth — UX Skillset Certification 2024

Duda Certified — Web Design Certification 2024

Coding Ninjas — Full Stack Web Development 2023

Hablar — Professional Communication & Soft Skills 2024

Education

M.Sc. in Information Technology — The Maharaja Sayajirao University, Vadodara Nov 2021 – May 2023

B.Sc. in Computer Science — Veer Narmad South Gujarat University, Surat Aug 2018 – Jul 2021
